Smarter Technologies group Modern Slavery Statement

Introduction

This statement is made pursuant to section 54 of the Modern Slavery Act 2015. It constitutes Smarter Technologies Group's (STG) Slavery and Human Trafficking Statement for the financial year ended December 2024. The statement covers the activities, which procure good and services from and form part of the STG supply chain.

Our Supply Chain

STG is committed to continuously improving its practices to identify and eliminate any slavery and human trafficking in its business and supply chains, and to acting ethically and with integrity in all its business friendships.

STG uses a wide range of suppliers who supply goods for sale, provide services and support our operations.

Due Diligence

We continually monitor suppliers we believe present high modern slavery risks in our supply chain. This includes those who support the procurement of goods and materials, particularly where goods and materials are acquired from supplies in countries deemed to be high risk.

All suppliers which we class as high risk must:

On an annual basis and prior to sourcing, provide full detail of the supply chains they are proposing to commission goods from on behalf STG.

Should a supplier fail to provide the information requested or meet STG expectations. STG will take appropriate action, which may include not entering into a relationship or terminating the relationship with the supplier concerned.

Training

During the year, we have continued to provide advice and guidance to those teams who have direct responsibility for relevant supply chains.

Looking Ahead

Over the course of the next financial year we will continue to enhance our procedures to help ius identify, prevent and mitigate and risks of modern slavery of human trafficking in relation to new and existing suppliers.

Ed Walker

Director, Smarter Technologies Group Limited
